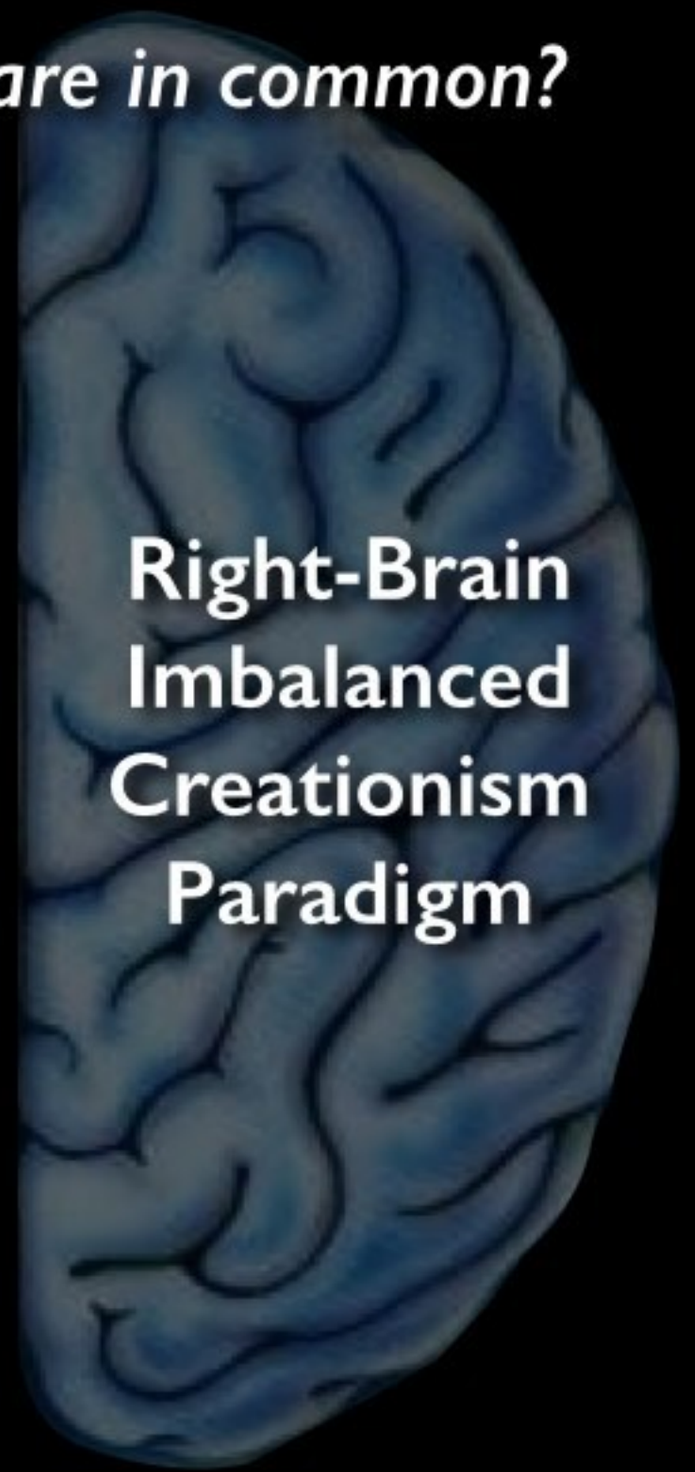
POLARIZATION DIALECTICS

REGARDING CREATION & HUMAN ORIGINS

What do these two Polarizing Paradigms share in common?

Left-Brain Imbalanced Darwinian "Evolution" Paradigm

- Total dismissal of FREE WILL
- Dismissal of Consciousness and its ability to create change
- Externalization of all power (We are either at the mercy of genes or God.)
- A deeply entrenched belief that the Human Condition ***CAN NOT*** be changed.



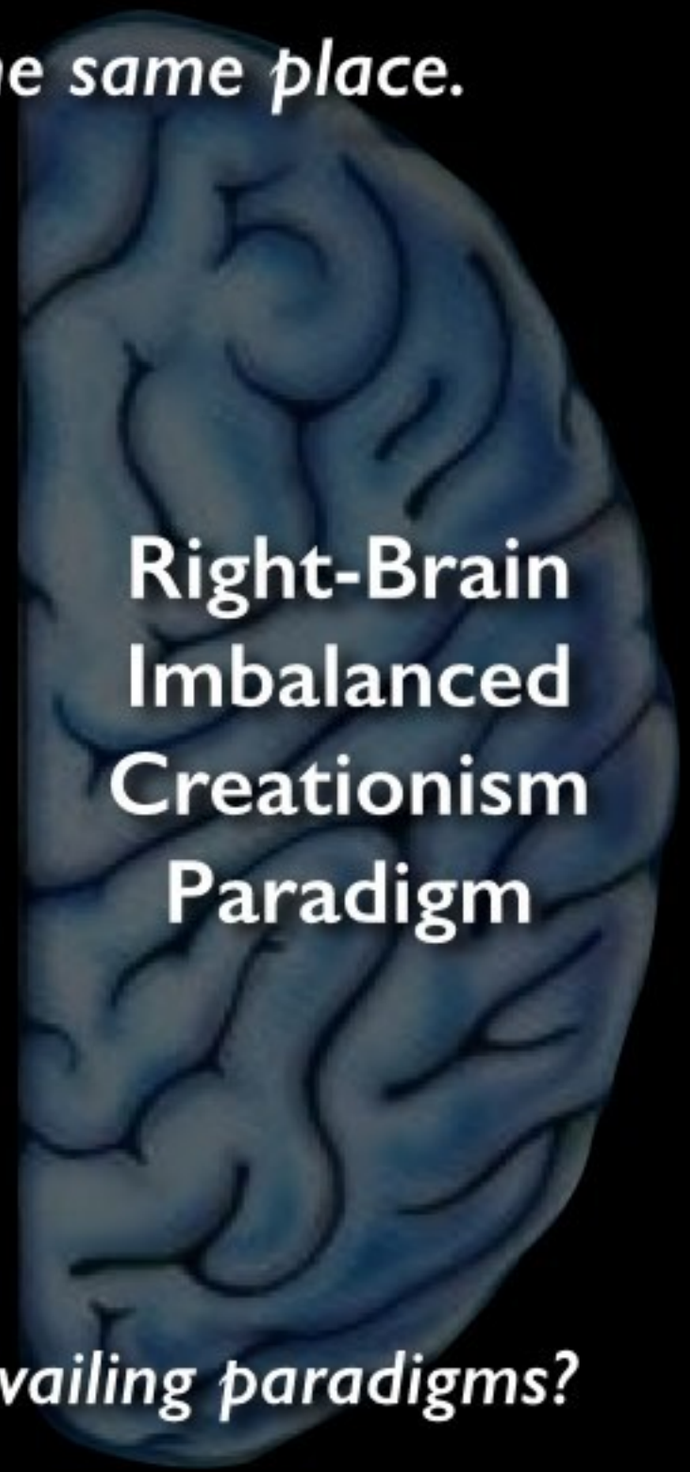
Right-Brain Imbalanced Creationism Paradigm

POLARIZATION DIALECTICS

REGARDING CREATION & HUMAN ORIGINS

Both of these Polarizing Paradigms lead to the same place.

Left-Brain Imbalanced Darwinian "Evolution" Paradigm



Right-Brain Imbalanced Creationism Paradigm

Is there an alternative to these two imbalanced prevailing paradigms?

INTERFERENCE THEORY
OF HUMAN ORIGINS

An alternative to the two imbalanced prevailing paradigms of Darwinian "Evolution" and Religious Creationism

- **Natural Evolutionary Progression** (NEP) works first in the physical / biological / genetic domain and eventually proceeds to the Epigenetic domain (Consciousness).

- The process is an automated one, directed by Creation, until it enters the Epigenetic domain, whereupon the Free Will of beings who have developed the capacity for Holistic Intelligence becomes involved.

- After that point, the amount of aggregate Consciousness a species develops through Free Will is largely responsible for future progression, stagnation or regression of the species.

- This Natural process could be ***interfered*** with on the part of other forms of Consciousness who have already entered the Free Will stage of this process.

INTERFERENCE THEORY
OF HUMAN ORIGINS

An alternative to the two imbalanced prevailing paradigms of Darwinian "Evolution" and Religious Creationism

Natural Evolutionary Progression / Syntropic Force / Ordering Force / Will Of Creation

NEP at work in a species in the physical / biological /genetic domain

NEP at work in a species in the Epigenetic domain (Consciousness / Free Will)

Point of possible **INTERFERENCE** with NEP by another form of Consciousness

Such Interference, whether genetic or epigenetic, immediately begins to act as the Entropic / Involutionary Force, which counteracts Natural Evolutionary Progression.
